

# COMPROMISE TO CO-DISCOVERY: A TREATMENT PLANNING JOURNEY

December 5 - 7, 2024

## COMPROMISE TO CO-DISCOVERY: A TREATMENT PLANNING JOURNEY

*This course has no course or educational prerequisites*

**HANDS-ON PARTICIPATION COURSE**

Dr. Melkers always brings a unique perspective to his workshops and challenges us to the way we think. At Compromise to Co-Discovery, we will be exploring a variety of challenges in communication, treatment planning, and of course occlusion.

Not to give away the surprise, but our time together will be unique! The attendees will treatment plan for the same patient three ways below, at and above 'the line' in their desired level of care. This case personifies how patients can say yes but also not yet as we journey with them toward health throughout their lifetime. In this unique workshop, we will explore the patient and clinician journey that evolves in a relationship based practice of clinical excellence. Following a single patient, we will treatment plan, communicate and apply our skills to meet the patient, and ourselves, along the journey from compromise to comprehensive care.

Day Three will provide the opportunity to review cases, discuss questions and form plans to implement our learning.

*\*This course is an excellent opportunity for those on their own Pankey journey to increase their confidence and competence in skill s application as well as those that are considering beginning their Pankey journey.*
