HARMONY IN INTERDISCIPLINARY CARE: BLENDING EXPERTISE

The Pankey Symposium is a combination of Tier 4 educational content and an incredible chance to have fun and reconnect with the Pankey community.

During the day you will get the chance to spend time with some of the most respected educators in dentistry.

Jonathan Esquivel, DDS

Implant Prosthodontics with a Biological Mindset

In this presentation, attendees will have the opportunity to learn about prosthetically-driven treatment planning in implant dentistry to predict functional, biological, and esthetic success.

We'll explore proper provisionalization, prosthetic design, material selection, and a clear understanding of biology to achieve a desirable transition between soft tissue and restorative interphase.

Gary DeWood, DDS

Harmony-Balance-Quantum Reality

Quantum mechanics tells us that the present is not a predeterminable event in time and that there are things we could choose to do in our present to influence the future as it becomes our new present. Blending Expertise is an action influencing the probability of a future that could be. We create the best probability of the future we see through our thoughts and actions in the present. If entanglement is a valid observation of the quantum world, we can likely also influence the probability of a visioned future well beyond ourselves.

Daniel Berant, DMD

The Crossroads of Dentistry: Ortho-Perio Solutions for Optimal Patient Outcomes

This presentation explores the transformative potential at the crossroads of dentistry, where technology meets traditional practices to enhance comprehensive patient care. We will delve into the intersections between medicine and dentistry, periodontics and orthodontics, and technology and biology. The discussion will highlight cases focusing on these crossroads from ortho with periodontal surgeries, such as SFOT and how we can incorporate restorative work to optimize the final result.

Richard T. Akin, DDS, MD

Anterior Implants: Achieving Better Results, Simply

This lecture will present novel practical techniques for optimizing sites before immediate implant placement in the esthetic zone. We'll explore criteria for patient selection in accelerated anterior implant cases to improve case predictability and contemporary placement techniques specific to the maxillary anterior region for optimal esthetic results. Attendees will learn proven protocols that enhance immediate implant placement outcomes.

Melody Ward, DDS

The Case For Conservation: Elevating the Role of Preservation in the Dental Practice

Current trends in dental practice seem to be leaning more towards implant dentistry. This presentation makes the case for implants being a last resort and looks at alternatives to extraction. We will review current literature on implant success and survival rates while also examining some cases showing treatment involving implants and some that have avoided them. The role of periodontal therapy in maintaining dentition and current trends in treatment of edentulous arches will be covered.

John Lavicka, CDT

Digital Case Planning for Comprehensive Care

This lecture provides dental professionals with practical strategies to enhance communication between the dental team, the patient, and the laboratory for optimal case outcomes. We'll explore in more detail additive mock-ups, techniques to streamline collaboration with the dental lab for high-quality results tailored to each case, outcome-driven prep design and interdisciplinary planning for exceptional results.

FUN RUN WALK

📅 FRIDAY, SEPTEMBER 19TH, 2025

📍 Location: Hotel Lobby

About the 5K FUN RUN/ WALK

Lace up and join us for the Pankey Fun Run/Walk, a cherished Symposium tradition that blends fitness, fun, and philanthropy! Held Friday afternoon after the educational sessions, this energizing event is the perfect way to get moving and soak in the beauty of Palm Beach.

Whether you're walking or running, you'll enjoy a scenic route around the Eau Palm Beach Resort alongside fellow attendees and friends. Every step supports a good cause—all proceeds go toward scholarships for future Pankey learners.

Custom 2025 Pankey
FUN RUN/WALK

T-Shirt Included

FRIDAY, SEPTEMBER 19TH, 2025

POP STROKE EVENT

Join us for a one-of-a-kind evening at PopStroke Palm Beach, the ultimate destination for fun, food, and friendly competition. Enjoy unlimited mini-golf, delicious dinner, craft cocktails, and exclusive access to the rooftop patio—all while connecting with the Pankey community under the stars.

THE VENUE

EAU PALM BEACH RESORT & SPA

100 S Ocean Blvd, Manalapan, FL

Things to Do at Eau Palm Beach Resort & Spa

Eau Spa

Indulge in personalized treatments, the Self-Centered Garden, steam rooms, saunas, and luxurious lounges.

Private Beach Access

Enjoy pristine sands and ocean views with beachside service and cozy loungers.

Resort Pools

Relax at the adults-only tranquility pool or bring the family to the active pool, both offering poolside food and beverage service.

Tennis Courts

Hit the court with ocean breezes and access to professional instruction if desired.

Fitness Center & Wellness Classes

State-of-the-art gym and daily fitness options including yoga, barre, and water aerobics.

Eau Experiences

Ask the concierge about beachside picnics, bike rentals, firepit gatherings, or seasonal mixology and culinary classes.

On-Site Dining

Angle – A fine dining experience with elevated coastal cuisine.

Nobu – Japanese restaurant featuring Chef Nobu Matsuhisa's world-renowned cuisine.

Polpo Palm Beach – Sophisticated Italian dining in a vibrant setting.

Breeze Ocean Kitchen – Casual beachfront dining with fresh, local flavors.

CHECK IN September 18, 2025

CHECK OUT September 21, 2025

PANKEY SCHOLAR

Congratulations to Cohort 15

At its core, Pankey Scholar involves a process of directed self-discovery. It takes 'know yourself' to another level. It promotes vulnerability by sharing that self-knowledge with an intimate group of peers. It involves effort, commitment, and sacrifice. It produces surprising rewards. It is the pinnacle of a Pankey Education.

The Pankey Scholar program is intended for those who desire to continue their self-development by demonstrating the level they have achieved in clinical competency, behavioral relations, philosophical understanding and practice financial management. Let's celebrate our most recent cohort who has now been given the title of Pankey Scholar.

DR. L.D. PANKEY LEFT US A LASTING LEGACY. **WHAT LEGACY WILL WE CREATE TOGETHER?**

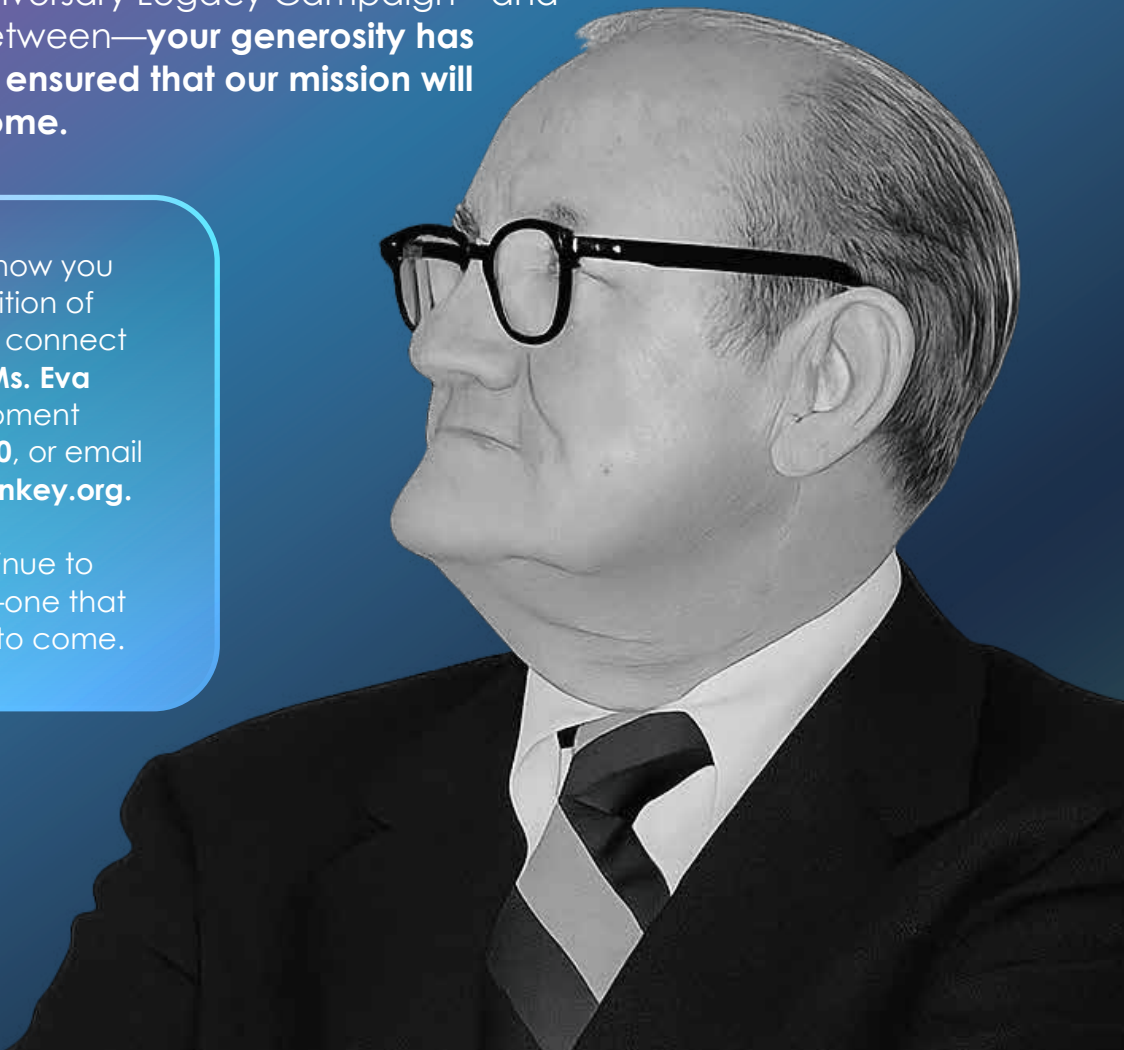

At the heart of the Pankey community is a powerful, enduring tradition: the belief that **giving back is not just an act—but a way of life**. From our earliest days, teaching and inspiring others to serve the dental profession has been a cornerstone of The Pankey Institute. And today, that legacy is more vibrant than ever.

Nowhere is this spirit more alive than in our remarkable visiting faculty—**this year, more than 110 strong**. These dedicated professionals are the backbone of our relationship-based learning model. They bring the Pankey Philosophy to life every day, sharing values and concepts in real time that inspire the next generation of dental leaders.

Our generous financial supporters have also played a vital role in shaping our future. From the founding gifts that launched our mission to the success of the 50th Anniversary Legacy Campaign—and every contribution in between—**your generosity has sustained our work and ensured that our mission will continue for years to come.**

If you'd like to explore how you can be part of this tradition of giving, we invite you to connect with **Dr. Mike Crete** or **Ms. Eva Montero** in the Development Office at **(305) 428-5500**, or email us at **development@pankey.org**.

Together, we can continue to build a lasting legacy—one that will inspire generations to come.

Ways to become a part of the Pankey mission and create your lasting legacy!

THE PANKEY ALUMNI ASSOCIATION

After beginning your journey at The Institute, you are invited to join the Association. Membership benefits provide an excellent way to stay connected over time.

THE PANKEY ANNUAL FUND

The Annual Fund is a gift "over and above" your alumni dues that supports the operational mission of The Pankey Institute from year to year. It is generally your first philanthropic gift to The Institute and begins a journey of lifelong learning, community building, and financial support.

THE PANKEY SYMPOSIUM

The annual symposium is an opportunity to participate in professional development, recognize volunteers and donors, and build the relationships that are the fabric of the Pankey community.

QUID PRO QUO SOCIETY RECOGNITION OPTIONS

The Society was created to recognize the family of supporters who generously have given and continue to give to The Institute over their lifetime.

CLASS ONE TRIPLE PLUS MEMBERSHIP

Part of the formal Quid Pro Quo Society, the club recognizes the significant level of investment (\$10,000 or more pledged or given in one's lifetime).

LIFETIME GIVING RECOGNITION

Each giving option is permanently recognized within The Institute and included in ongoing annual recognition in print and electronic media.

\$10,000 Jade – Class One Triple Plus	\$250,000 Gold - Benefactor
\$25,000 Silver - Patron	\$500,000 Emerald - Founder
\$50,000 Ruby - Sustainer	\$1,000,000 Diamond – President's Circle
\$100,000 Sapphire - Guarantor	

PANKEY ENDURING FUNDS

One of the key ways to ensure the future financial viability of the Pankey Foundation is by contributing to one of the foundation's Enduring Funds. These funds, both restricted and unrestricted, are primarily designated to support participant enrollment, strengthen visiting faculty, enhance teaching technology and facilities, and secure future financial stability. For more information about these Enduring Funds, please refer to the additional Symposium materials or contact a Development Team member.

THE LEGACY SOCIETY

The ultimate gift that a donor can make to an organization is remembering the organization in their estate plan; a gift reserved for organizations that mean the most to you and your family.

You Can't Treat What You Can't See.

Powered by QPD®, InnerView reveals what imaging can't—quantifiable data on implant stability in just 3 seconds.

Backed by 29 clinical studies and 79 global patents, InnerView delivers:

- ✓ Quantitative implant data in just 3 seconds per scan
- ✓ Proven precision across over 1 million tooth measurements
- ✓ Objective support for unrestored and restored implant evaluation
- ✓ Long-term tracking to enable proactive, trust-building care

This isn't just innovation—it's the professional's solution to modern implant diagnostics.

"Perhaps the best innovation since the x-ray."

— Robert Kelly, DDS., PhD.,
University of Connecticut

VIRTUAL EDUCATION

Pankey offers three different learning environments for easy, real-time access to courses addressing a full range of topics. The same incredible faculty teach our online programs as our in-person programs and offer an exceptional learning experience. Whether you are looking for new knowledge or to connect with like-minded professionals, we have an online resource for you.

PANKEY WEBINARS

In these free 60-minute webinars, we will address the technical, behavioral, and financial habits necessary to build a successful practice and achieve a work / life balance.

These programs are presented at 8pm ET on a weeknight. You can attend live, or you can watch our library of recorded programs on our Pankey YouTube channel.

PANKEY ONLINE

Participating in a Pankey Online course is a wonderful opportunity to experience Pankey learning from your home or office. The Programs range from 2-5 CE hours and are offered live or on demand. During your first visit to the site you will have to create a free membership.

Upcoming live courses are featured on the home page, or can be found on the event calendar. For on-demand courses, you can search by topic or faculty member.

RESTORATIVE NATION

Restorative Nation is a supportive online learning community with over 800 recorded videos. Videos range in length from our 5-minute curator journals that are posted every week to multi-hour lectures for in-depth learning.

Members of Restorative Nation also have access to exclusive live webinars 8 times per year. If you are looking for a more immersive learning experience, this is your online option. Restorative Nation will be an incredible asset if you have begun your Essentials journey and are looking for a way to review or share the learning with your team.

PANKEY STORE

THE PANKEY STORE IS NOW ONLINE AT **ONLINE.PANKEY.ORG**

To shop online create a free membership at online.pankey.org.

Your membership allows you to track purchases, find receipts, and review your purchase history.

With a deep commitment to delivering excellence and providing the essential resources to your practice, we are happy to offer exceptional service with the necessary equipment, supplies, and suggested reading materials that correlate with our courses.

Visit our online store and discover all the incredible resources that await you.

Dive into essential dental resources you need for everyday procedures. Among our collections are:

- **Splint Fabrication Materials:** Choose between different Articulating Marking Materials, and articulator systems to help you adjust occlusion correctly.
- **Burs, Wheels & Polishers:** Equipment tailored for precision that will empower you to excel in your dental practice and patient care.
- **Photography Equipment:** Take accurate photographs by using the right tools like buccal retractors and reflecting mirrors.
- **Publications:** We offer a range of books and references recommended by The Pankey Institute experts.
- **X-Ray Materials:** Find the materials you need to get proper intra-oral and extra-oral films.
- **Miscellaneous:** Ensure you have access to all the essential supplies from TMJ Tutor to Dental Burner and more.
